

Kodak i2000 Series Scanners

Get big-time performance in a smaller scanner

So much performance in so little space

Today's business runs on information. When that information is on paper, it can slow you down. To get things flowing faster, you need a scanning solution that combines simple operation and time-saving features in a remarkably small and powerful package. Check out all the ways that the latest **Kodak** i2000 Series Scanners can help you get ahead.

Impressive productivity

- Save time by using Smart Touch technology to perform multi-step scanning processes with the press of a button
- Built-in barcode reading delivers data to applications
- No waiting for warmup: start scanning instantly with always-ready LED light
- Scan larger batches in input trays that hold up to 100 pages
- Streamline mixed jobs: the scanner automatically recognizes colour pages, bypasses blank pages, and orients every document so it's right-side up

Endless versatility

- Handle almost anything: small documents or large, thick or thin, ID cards, even embossed hard cards
- Mix small, large, thin and thick documents in one batch
- Expand your possibilities by scanning bound, oversize, and fragile documents with optional legal- and tabloid-size flatbed accessories
- Manage and update the scanner remotely to save deployment time using **Kodak** Asset Management Software

Better image quality

- Capture images with greater consistency, clarity, and colour
- Built-in Perfect Page technology can deliver scans even clearer than the original documents
- Read and capture text flawlessly for more accurate OCR
- Consistently great image quality means you'll virtually eliminate rescanning or post-image processing

Space-saving design

- The innovative, even-more-compact stow-or-go design lets you store the scanner upright when not in use

No expertise required

- Smart Touch technology lets you perform up to nine different tasks with the push of a button — including creating PDFs, attaching documents to e-mails, organizing them in folders, or sending them to Cloud services
- Easy-to-read control panel makes scanning documents simple
- It's backed by a three-year worry free warranty that gives you extended peace of mind. Additional support options are available.

The Kodak i2000 Series Scanners in action

A surgery center enjoys a simpler solution

The staff at a large surgery center is focused on the important business of patient care. But their jobs also involve lots of paper work. Up to 150 forms and letters arrive daily as part of serving over 13,000 patients. To deal with this flood of documents, they rely on a **Kodak i2420 Scanner**, integrated with workflow and document management software. The solution captures data and makes it available to 20 clinical team members.

The IT manager at the surgery center, and the people who use the solution every day, especially appreciate these key benefits of the i2420 Scanner:

- **Speed:** Busy staffers love the fact that the scanner starts working instantly with no warm up time. And once rolling, the i2420 Scanner can process up to 5,000 pages per day at 40 pages per minute. The i2420 Scanner also eliminates the time-wasting need to photocopy colour documents before scanning to improve quality.
- **Simplicity:** Everyone at the center mastered the scanner in minutes, thanks to brilliantly intuitive Smart Touch technology. The i2420 Scanner automatically handles problems that can slow down the process, such as rotating pages so they're right reading, and recognizing colour pages mixed in with black and white.
- **Reliability:** Since documents received are critical to patients' health, the surgery center counts on the reliable uptime of the i2420 and the 3-year warranty that backs it up.

A building supplier achieves higher level of efficiency

A large building materials company has installed 39 **Kodak i2420 Scanners** along with **Kodak Capture Pro Software** spread over 39 country locations as part of a proof of delivery solution. The task: to scan about 15,000 delivery slips per month, generated to enable their staff of over 400 to answer numerous daily queries from customers asking who signed for the goods before issuing an invoice payment. A unique barcode on each delivery form is automatically read by Capture Pro and archived together with the customer's order in the same folder.

- **Efficiency:** Our aim as a business is to be as paperless as possible, to enhance efficiency and effectiveness as well as be more environmentally friendly. According to the IT Manager the new proof of delivery scanning module achieves all these goals and keeps the operation as simple as possible.
- **Savings:** "The installation of **Kodak** scanners and Capture Pro software dramatically increased our efficiency in replying to customer inquiries and achieved return on investment in less than a year."

ROI in less than **1** year
